

tinyxml2::XMLDocument  
::LoadFile

```
graph LR; A["tinyxml2::XMLDocument  
::LoadFile"] --> B["tinyxml2::XMLDocument  
::Parse"]; B --> B;
```

The diagram illustrates a two-step process for loading and parsing an XML document. It consists of two rectangular boxes. The first box, on the left, is white with a black border and contains the text 'tinyxml2::XMLDocument' followed by '::LoadFile' on a new line. A straight blue arrow points from the right side of this box to the left side of the second box. The second box, on the right, is gray with a black border and contains the text 'tinyxml2::XMLDocument' followed by '::Parse' on a new line. A curved blue arrow originates from the top of the second box and points back to its top, indicating a self-loop or a return path.
